

GenAI in Action: Building Agentic Workflows Today

Presented by Esther Birnbaum,
EVP of Data Intelligence, HaystackID

From Discovery to Intelligence

Curiosity as Our Guide

Discovery was never just about finding facts. It taught us how to see patterns and build context — the foundation of modern intelligence.

"Now, with GenAI, discovery becomes our compass for the future.

Discovery Meets the Frontier

Discovery transforms into intelligence — that's GenAI in action

A Case in Point: Building an Agentic Privilege Log

Transition to Agentic Workflows

- 250K documents processed in one week
- AI classified, drafted, and validated log entries
- Humans remained in loop for oversight and approval

What Comes Next: From Reaction to Foresight

Defense by Design

Yesterday: Built to react.

Tomorrow: Designed to foresee.

Smart Responses: AI-Driven Investigations

Smart, Fast, Defensible

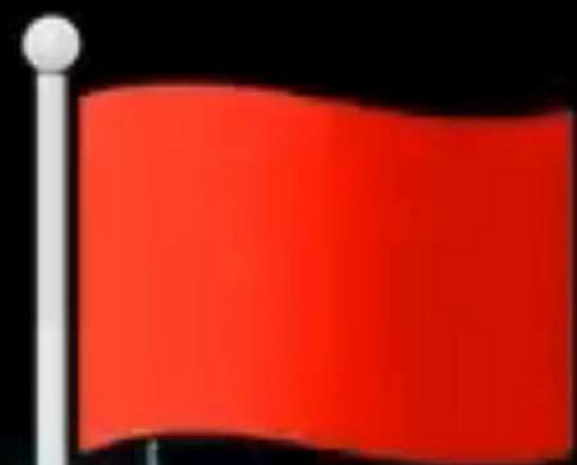

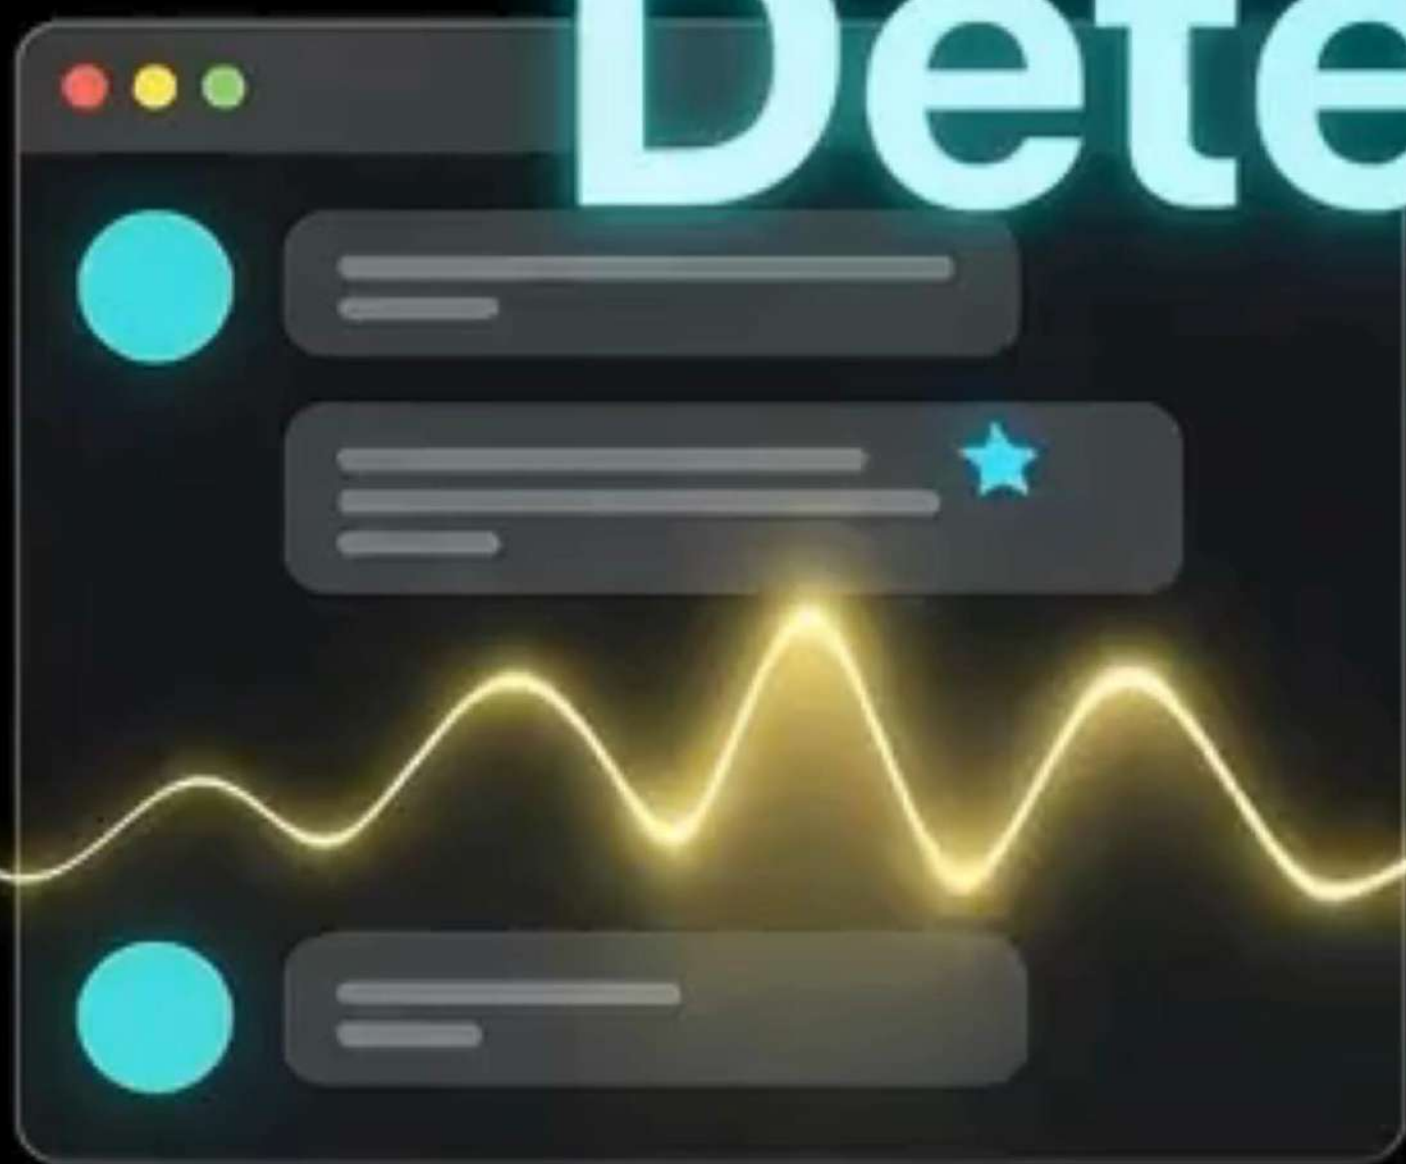

AI-powered agents:

- Detect incidents
- Automate investigation workflows
- Surface facts,
- Enable rapid, defensible decisions

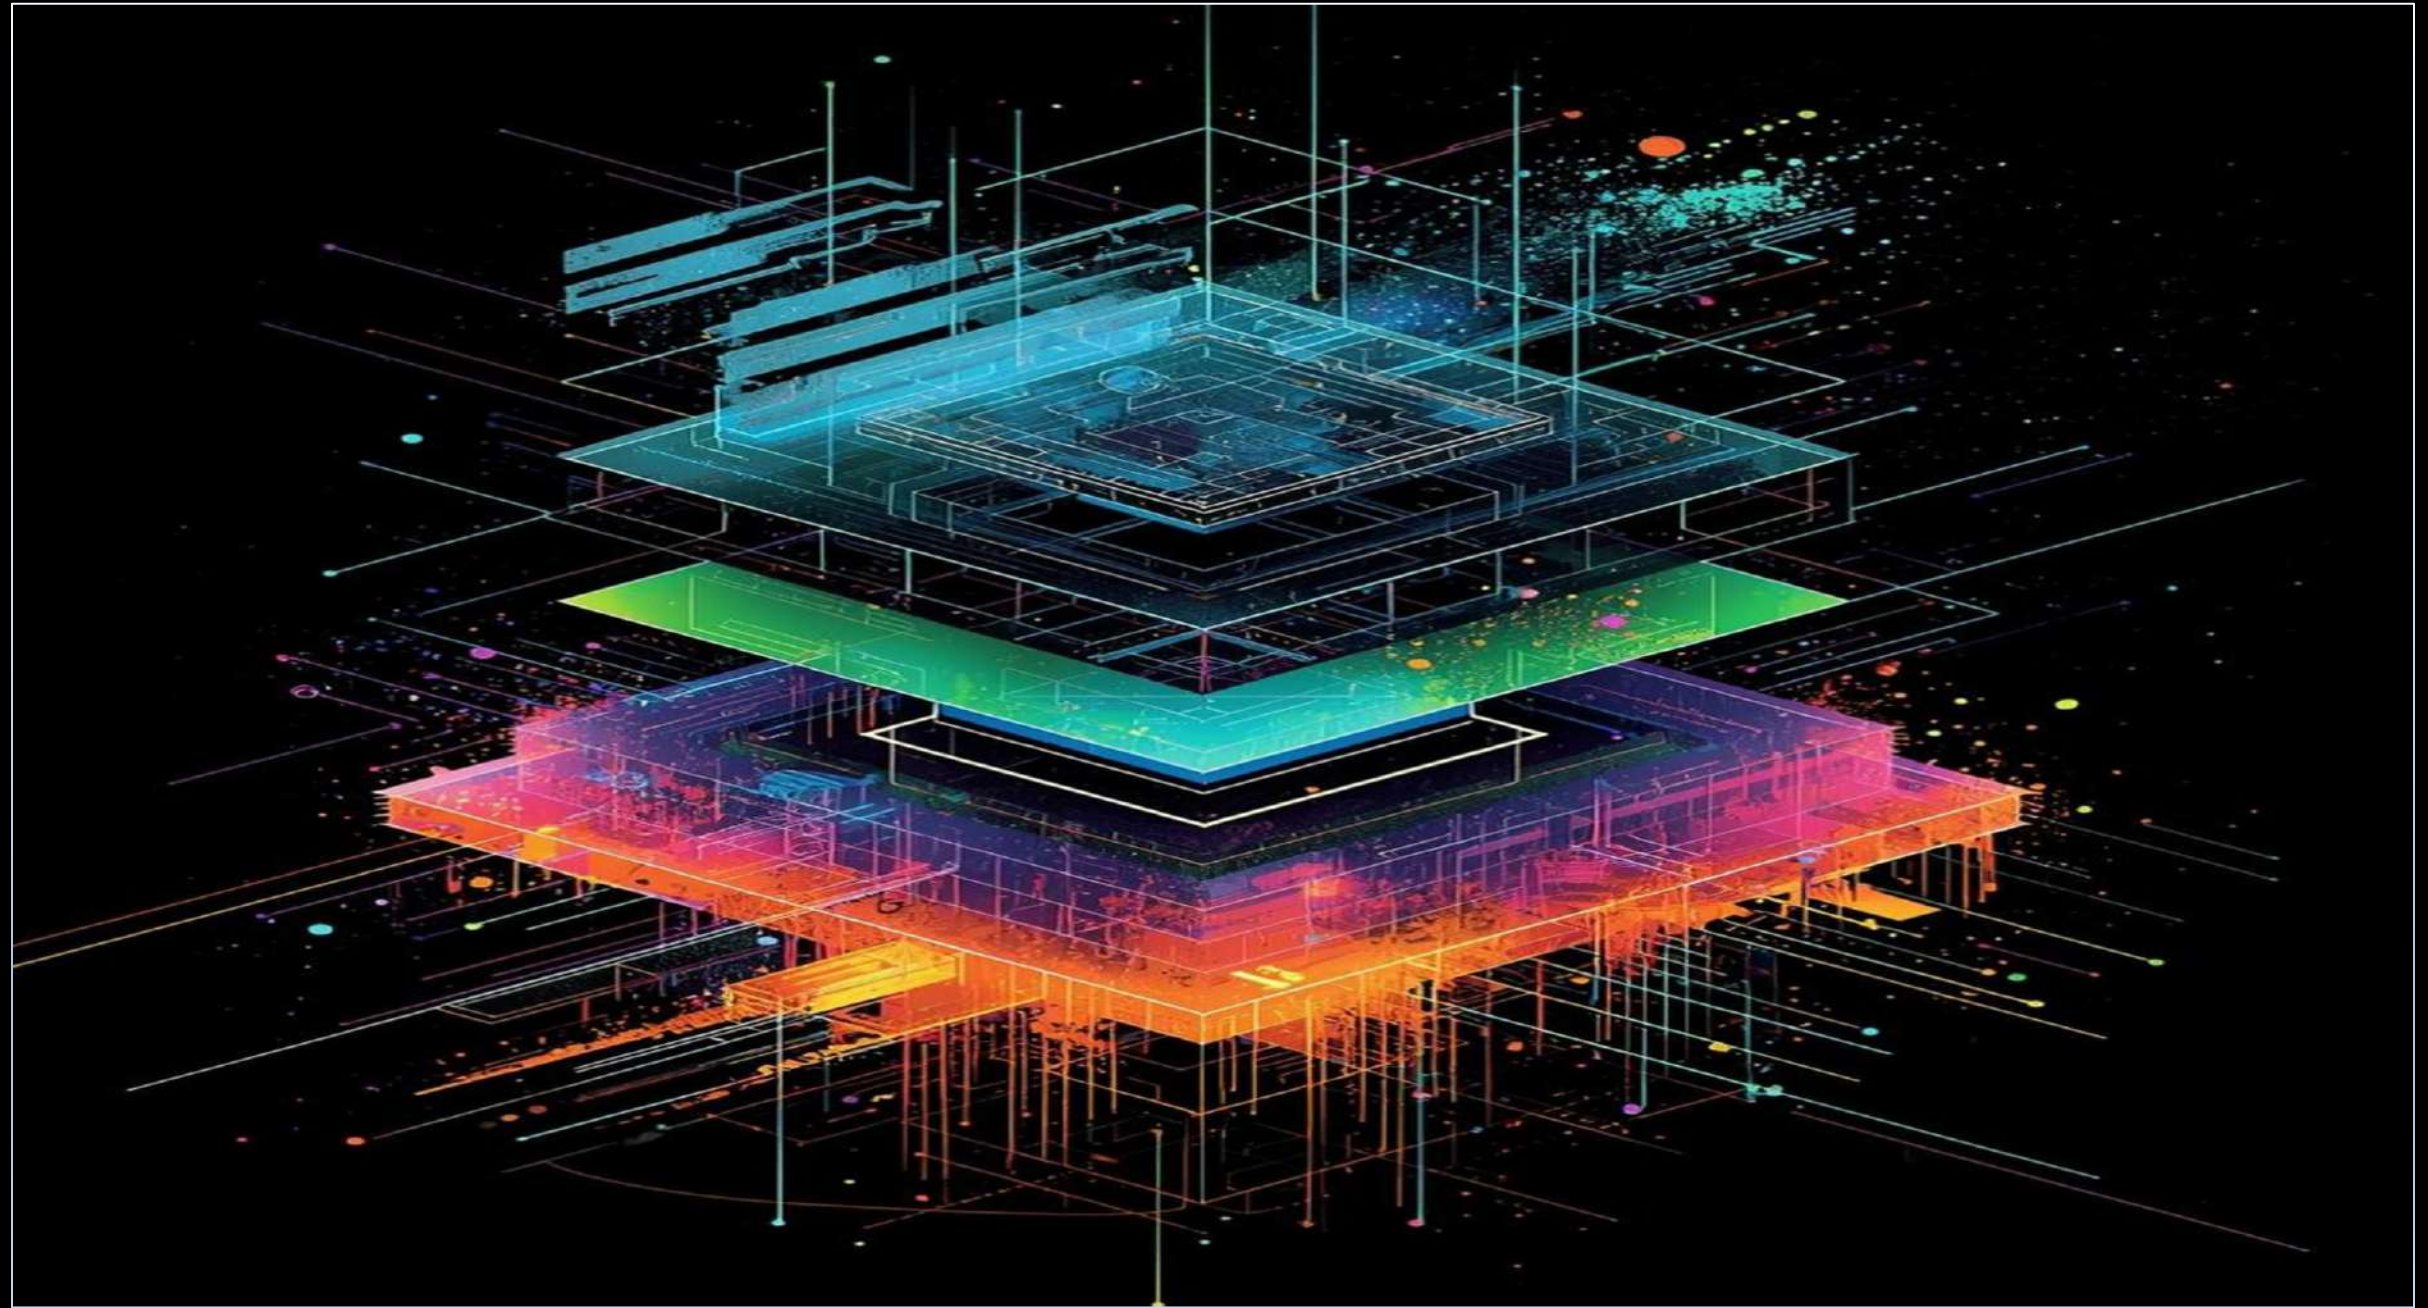

AI agents connect the dots in real time — humans stay in control.

The AI Dividend: Time

Defining the Future

If GenAI gives us one true dividend, it's time.
Time to think. To design. To decide.
How we use it will define the future.
